Work in progress

TODO

- ~~Sort the complete listing section~~
- Various places to add (WIP)
  - Washington State cities
    - More coming soon
  - Oregon State cities
    - More coming soon
  - Idaho State cities

    - More coming soon
- Find a specific location you have been to that contained a silver mine, hot springs, and abandoned prison museum; once found, list it, and document its sites.
- Add SVG flags for countries, states, counties, cities, towns, and other settlements
- I am being told that there are a lot more than 52 total settlements I have visited in my lifetime, due to all of the villages, towns, and cities on the way to several locations (such as Cannon Beach, Oregon) a lot of entries will need to be added in he future.
- There will soon be more revisions to this document than there have been total settlements I have gone to – 2025, October 9th
- Make a separate listing for administrative divisions (states, districts, counties, provinces, etc.)
- There are now just as many total settlements I have been to, as there are revisions to this document (as of 2025, Saturday, October 17th, version 51)

Extra resources

[Physical, paper copy] DELORME – Washington Atlas & Gazetteer (2001, 25 year anniversary edition)

Temporary remix (Travel log × WorldDB)

Combining the two, until this is a separate document.

I have recently reunified my WorldDB folder, and have been working on putting the scattered pieces back together, and improving on it. Unification of systems has been a major theme for me this year.

It is still a major work in progress. Here is what I have so far:

Starting to look at the possibility that there might be a category I haven't discovered yet.

The Islamic Emirate of Japan was a mistake I stumbled across after reading about an event from yesterday, I was looking for Islamic Republic of Japan, and my public statement criticizing the event was problematic for this reason, as I misquoted a misquote.

So embarrassing how I misquoted a misquote

Even more embarrassing that [REDACTED]

To be fair, I am frequently working with a lot of former countries, many of them Islamic countries. Mistakes also happen sometimes

Let’s see how this plays out by tomorrow

The entry was redacted, because it was too political, even for this project. I have limits on how political I can be on some projects.

Notes main

2026, July 7th: I have been aware that many of the entries I have listed are not independent former countries, but administrative divisions of former countries. They are to be merged in the future.

Research targets:

List of fictional countries set on Earth

Fictional country

Entries to fix (fictional countries)

Both of them contain spaces in the folder name

Oolong Island

Slaughter Swamp

General rules

1. The list of former countries frequently lists unrecognized countries/states, quasi-states, rump states, short-lived territories, and other territories of questionable legal standing. The goal is to be exhaustive. Inclusion on this list does not indicate a recognition of sovereignty of legitimacy.
2. This page is considered Not Safe For Work (NSFW) and also may be illegal in countries that ban the usage of Fascist (Nazi, Fascist Italy) Extremist, and Communist symbols, due to the uncensored usage of flags for Nazi Germany, the German Empire and its client states, Islamic State, Afghanistan, the Soviet Union, and more. This project is for historical and educational purposes only. I condemn most of the countries I am listing, but written history should not be erased or altered. I am just preserving what has already happened. In some extreme contexts/cases, some flags (such as the flag of the Kingdom of Ireland) may be considered illegal due to its sexuality, due to the flag containing human female breasts.
3. Notice: Do not use the 2021 Afghanistan flag (Taliban flag) to represent Afghanistan. Continue to use the Republic of Afghanistan flag.
4. Do not include widely unrecognized countries (such as Abkhazia, Northern Cyprus, and South Ossetia) in the current countries listing, with the exceptions of Israel, Kosovo, Palestine, Republic of China, Tibet, and Western Sahara
5. Although tempting, do not merge the Peoples Republic of China (Occupied China) directory into the Republic of China directory.
6. Hong Kong and Macau are considered separate countries.
7. Future ToDo: Move the British Colombia directory into the Canada directory.
8. The question of merging the French-Polynesia directory into the France directory is currently being debated.

9. No flags will represent Antarctic claims, only pictures of the map with the claim will be used for FolderArt here.
10. Micronations are not to be classified as fictional countries.

Germany is traditionally a country organized as a federal state. The dissolution of the Holy Roman Empire in 1806 and the Napoleonic Wars led to an interregnum of federalized control. But after Congress of Vienna in 1815, the German-speaking territories of the former Holy Roman Empire became allied in the German Confederation (1815–1866), a league of states with a shared army and some federal elements to regulate issues that affected multiple states.[1]:219 After the Austro-Prussian

War, the Northern states joined into a federal state called the North German Confederation (1867–1870), led by Prussia.[1]:256 The Southern states joined the federal state in 1870/71, which was consequently renamed the German Empire (1871–1918). The state continued as the Weimar Republic (1919–1933).

Present-day Germany is a federal republic which combines the States of Germany.
